# KÜHTAI – A SUSTAINABLE RESORT

THANKS TO MANY INITIATIVES,  
KÜHTAI KEEPS ITS ECOLOGICAL  
FOOTPRINT AS SMALL AS POSSIBLE

## CLEAN ELECTRICITY DIRECTLY FROM KÜHTAI

The nearby Sellrain-Silz hydroelectric power station supplies the winter sports resort of Kühtai with 100 percent clean electricity and produces a total of around 13 percent of Tyrol's electricity demand. For the entire local power requirement of the highest ski resort in Austria with all accommodations and railways only a small proportion, about half a percent, is needed.

## A PHOTOVOLTAIC SYSTEM PROVIDES SUSTAINABLE ENERGY

The photovoltaic system on the "House of Tourism" produces the annual output of energy to power the "StartBahn" in the middle of the village during the winter.

*photovoltaic system*

*the purest air at 2,020 metres*

## SUSTAINABLE HEAT THROUGH BIOMASS

The district heating plant uses exclusively local biomass from a radius of 50 kilometres and thus replaces a fuel oil quantity of about 1,000,000 liters per year. The heat generated is distributed via a 3.5-kilometres-long pipe network to 90 per cent of all businesses in Kühtai throughout the year. This continues to guarantee the high air quality of the training location Kühtai.

More information on the district heating plant at  
[www.biowaerme-kuehtai.at](http://www.biowaerme-kuehtai.at)

## HIGHEST CHARGING STATION IN TYROL

The charging station, which was built in cooperation with the utility company TIWAG, supplies electric vehicles with eleven kilowatts per hour at four charging stations at 2,020 metres above sea level in the middle of the village. In addition, many of the accommodations in Kühtai also offer their house guests their own charging station.

## BIODEGRADABLE FUEL

The Kühtai snow cats drive with synthetic, biological biodegradable fuel derived from natural gas and has a positive effect on air quality.

# WINTER PLEASURE IN SELLRAINTAL

*skitour on the Wetterkreuzkogel*

*unique mountain experiences in Sellraintal*

## SKI TOUR JEWEL SELLRAINTAL

With more than 20 three-thousand metres peaks, the Sellraintal is a top-class region for ski touring – enjoying deep powder snow and bright firn, you can plan your ski tour as soon as the first snow has fallen, and well into spring, when it's already green in the valley. From the beginning of winter to the end of May, the Sellraintal ski mountains make one of the most popular ski tour destinations in Tirol. In Praxmar, you will find the first educational ski touring trail in Austria to expand your knowledge.

*Sellraintal – perfect area for ski tours*

*summit of sentiments*

## LAMPSENSPITZE

Very beautiful and easy cross-country ski tour that is among the most popular at the far end of the Sellrain valley due to its sunny, east-facing position.

## ZISCHGELES

A rewarding three-thousand metre climb with stunning panoramic views and a splendid descent.

## SCHÖNTALSPITZE

Superb ski tour in the heart of the Stubai Alps, with great slopes and, when the conditions are good, an enjoyable descent.
